

Five Design Lab Themes to Support Performance Based Learning (Wednesday out-of-building District Led Professional Learning)

Social and Emotional Learning (Culture)

- Teach About the Brain
- Teach About Different Mindsets
- Teach Productive Self-talk
- Use Growth Mindset Feedback
- Set Challenging Goals to Change Habits

Workshop for All (Learner Centered Environment)

- Whole Group Focus Lesson
- Independent and Collaborative Learning
 - Conferring
 - Small Group Instruction
- Share/Closure

Shared Vision & Code (Learner Centered Environment)

PART ONE:

- Co-create a Climate for Learning
 - Shared Vision of Learning
 - Code of Collaboration
- Creating Transparency
 - Standards Operating Procedures
 - Transparency of Learning Expectations

PART TWO:

- Learner Accountability and Advocacy

Backward by Design (Learner Centered Environment)

- Integrating Curriculum, Instruction and Assessment
- Beginning with the End-in-Mind
- Meaningful Understanding and Transfer of Learning

THREE STAGES OF BACKWARDS BY DESIGN:

- Identify Desired Results: *What is it that I want the students to understand and know and be able to do?*
- Determine Acceptable Evidence: *How will I know that they know what I want them to know?*
- Plan Learning Experiences and Instruction: *What do I need to do in the classroom to prepare them for the assessment?*

Assessment for Learning & Rubrics (Transparency)

- Sharing Learning Expectations
- Questioning
- Feedback
- Self-Assessment
- Peer-Assessment

Answers Three Questions: Where am I going? Where am I now? How can I close the gap?

Design Lab Themes 2016-2017
